California Proposition 65 Compliance Declaration

California Proposition 65 (“Prop 65”) is a voter initiative that entitles California consumers to special warnings to protect citizens from products that contain chemicals known to the state of California to cause cancer and birth defects or other reproductive harm if those products expose consumers to such chemicals above certain threshold limits.

Under Prop 65 regulations, the warning requirement does not apply to out-of-state manufacturers whose products are intended solely for industrial and commercial use within California. Following a thorough review, Lake Shore Cryotronics, Inc. certifies that its products are not subject to Prop 65 requirements, as they are not classified as consumer products. The materials incorporated into these products are fully encapsulated, preventing any contact, release, or exposure during normal handling and operation.

All information provided in this Certificate of Compliance is accurate, to the best of our knowledge, as of the date this certification was issued. For additional inquiries, please visit our [Compliance Certification Page](#) or contact compliance@lakeshore.com for more information.

Sincerely,

A handwritten signature in black ink, appearing to read "Rachel Lusher", with a long horizontal flourish extending to the right.
