DECLARATION OF CONFORMITY

in relation to

DIRECTIVE 2002/95/EC OF THE EUROPEAN PARLIAMENT
AND OF THE COUNCIL
OF 27 JANUARY 2003
ON THE RESTRICTION OF THE
USE OF CERTAIN HAZARDOUS SUBSTANCES (RoHS) IN
ELECTRICAL AND ELECTRONIC EQUIPMENT

Fluxmeters

Lake Shore fluxmeters measure total flux from which flux density (B) and/or H magnetic field strength (H) can be determined. The fluxmeter is valuable for magnetizing, manual and automated magnet testing and sorting, and as the main component in BH loop or hysteresisgraph measurement system applications.

The equipment detailed above is classified as category 9 equipment 'Monitoring and control instruments' as defined within Directive 2002/96/EC on Waste Electrical and Electronic Equipment (WEEE). As such, the equipment falls outside the scope of Directive 2002/96/EC on the Restriction of the use of certain Hazardous Substances (RoHS) and may legitimately contain substances restricted by Article 4.1 of Directive 2002/95/EC within each homogeneous element above the maximum concentration values defined within Commission Decision 2005/618/EC.

On behalf of Lake Shore: Karen E. Lint
